## Stats Explained

Below is important information describing the meaning of all statistics covered in this Stats Report:

**HMR** = Record with hammer to start game;  
**STL** = Record without hammer to start game;  
**1-PT** = Record in games decided by 1 point;  
**EE-H** = Extra end record with hammer;  
**EE-S** = Extra end record without hammer.

### Game Statistics:

All game statistics are calculated based on 10 end games. For example, PF/G is calculated by taking the total points scored, multiplying by a constant (10) and dividing by the actual ends played.

**PF/G** = Points For per Game;  
**PA/G** = Points Against per Game;  
**EF/G** = Ends For per Game;  
**EA/G** = Ends Against per Game;  
**BE/G** = Blanks Ends per Game.

### End Statistics:

**PF/E** = Points For per End. Total points scored divided by total ends taken. Offensive indicator.  
**PA/E** = Points Against per End. Total points against divided by total ends against. Defensive indicator.

### Efficiency Statistics:

**HE** = Hammer Efficiency = percentage of time taking 2 or more points with hammer. A team with a high hammer efficiency executes well with the hammer.

**FE** = Force Efficiency: percentage of time forcing 1 point without when the other team has the hammer. A team with a high force efficiency plays well defensively.

**SE** = Steal Efficiency = percentage of time stealing an end. A team with high steal efficiency is very good at stealing ends.

**SAE** = Steals Against Efficiency = percentage of time giving up a stolen end. A team with low steals against efficiency is very good at defending against stolen ends.

### Player and Team Shooting Statistics:

**Points (PTS)** = Total Points Scored. X/5

**Difficulty (DIF)** = Average Degree of Difficulty. Degree of Difficulty is an automated micro-multiplier (between 1.000 - 1.200) based upon each shot thrown, including pre and post contact modifiers. Degree of difficulty factors into the overall Shooting Percentage.

**Sweeping (SWP)** = Average Sweep Factor. Average distance swept (percentage). Determines effective usage of sweepers for shots. Sweep factor is not factored into the overall Shooting Percentage.

**Shooting Percentage (PCT)** = Average Shooting Accuracy (percentage).
